4.2 REGULATIONS

Regulations for MTS listed below are in addition to those contained in Section 2.

The message charges specified in this tariff are in payment for all service furnished between the calling and called stations.

The obligations of both Carrier and Customer as described in Section 2 also apply to MTS. In addition, during an MTS call the Customer should exchange identifying information with the called party to protect both their interests.

In order to control fraud, the Carrier may refuse to accept Calling Cards which it determines to be invalid.

Terms and conditions for AT&T Commercial Long Distance Service are set forth in Section 34 of this tariff.

4.3 TWO-POINT SERVICE

4.3.1 CLASSES OF SERVICE

There are five classes of calls. Charges apply according to the class of call the calling station selects.

A. DIAL STATION

Applies when the calling person dials the telephone number without the assistance of an operator and the call is billed to the calling number. Dial Station rates apply when the operator places a call when AT&T facilities are not available for dial completion, when there is trouble on the AT&T network, when the calling party is a Customer with disabilities, or when an AT&T service fault interrupts a call in progress and the Customer cannot redial the call.
